

## **JOURNAL ARTICLES 2007**

Bracklow, U., et al. (2007). Comparison of nutrient degradation in small scale membrane bioreactors fed with synthetic/domestic wastewater. *Journal of Hazardous Materials* 144: 620.

Drews, A., et al. (2007). Impact of ambient conditions on SMP elimination and rejection in MBR. *Water Research* 41(17): 3850.

Fastner, J., et al. (2007). Occurrence of the Cyanobacterial Toxin Cylindrospermopsin in Northeast Germany. *Environ Toxicology* 22: 26.

Fritz, B., et al. (2007). Naturnahe Grundwassergewinnung - Ergebnisse eines umfangreichen, interdisziplinären Forschungsvorhabens zur künstlichen Grundwasseranreicherung und Uferfiltration. *wwt wasserwirtschaft wassertechnik* (4): 6.

Grützmaker, G., et al. (2007). Cyanobakterientoxine bei der Uferfiltration. Unter welchen Umständen ist ihre Elimination sicher? *Bundesgesundheitsblatt - Gesundheitsforschung - Gesundheitsschutz* 2007 50: 345.

Jekel, M. and Grünheid, S. (2007). Ist die Uferfiltration eine effektive Barriere gegen organische Substanzen und Arzneimittelrückstände? *gwf Wasser Abwasser* 148(10): 698.

Massmann, G., et al. (2007). Behaviour and redox sensitivity of pharmaceutical residues during bank filtration - Investigation of residues of phenazone-type analgesics. *Chemosphere* 71(8): 1476.

Massmann, G., et al. (2007). Trinkwassergewinnung in urbanen Räumen - Erkenntnisse zur Uferfiltration in Berlin. *Grundwasser - Zeitschrift der Fachsektion Hydrogeologie* 12: 232.

Massmann, G., et al. (2007). Seasonal and spatial distribution of redox zones during lake bank filtration in Berlin, Germany. *Environmental Geology* 54(1): 53.

Massmann, G. and Sültenfuß, J. (2007). Identification of processes affecting excess air formation during Natural Bank Filtration and Managed Aquifer Recharge. *Journal of Hydrology* 359(3-4): 235.

Massmann, G., et al. (2007). Investigation of groundwater residence times during bank filtration in Berlin - a multi-tracer approach. *Hydrological Processes* 22: 788.

Ruecker, J., et al. (2007). Concentrations of particulate and dissolved cylindrospermopsin in 21 Aphanizomenon-dominated temperate lakes. *Toxicon*: 10.

Wiedner, C., et al. (2007). Climate change affects timing and size of populations of an invasive cyanobacterium in temperate regions. *Oecologia* 152: 12.

Wiese, B. and Nützmann, G. (2007). Infiltration of surface water into groundwater under transient pressure gradients. *IGB Jahresforschungsbericht* 2006: 55.
